

AppleCare One Summary and Disclosure

Please read this Disclosure to ensure your understanding of how AppleCare One works. You will be provided with plan documents electronically evidencing coverage shortly after purchase.

AppleCare One is an optional device protection program that provides combined benefits. AppleCare One Individual covers up to 3 devices, with the flexibility for you to add more or change which devices are covered in the plan. AppleCare One Family covers all eligible devices of those in the plan subscriber's Apple Family Sharing group. The plan provides device protection under a service contractⁱ for hardware coverage, technical support, battery depletion, and accidental damage from handling (ADH), and an insurance policy (Theft, Loss, and Power Surge) for loss, theft, and power surge coverage. AppleCare One is subject to certain terms, conditions, and limitations available at apple.com/legal/applecare/applecareone/. Theft and Loss Coverage may be purchased separately.ⁱⁱ

For a lost or stolen claim to be eligible for coverage, the device must be enrolled in the AppleCare One plan, logged-in with an Apple Account associated with the AppleCare One plan, and have Find My enabled, at the time the device is lost or stolen and throughout the theft or loss claim process. To enable Find My, you must (i) open the settings application on your device; (ii) tap your name; (iii) toggle on "Find My iPhone" or "Find My iPad" to enable. If on Apple Watch, make sure it is paired with your iPhone and Find My is enabled on your iPhone, ensure that your Apple Watch is paired and signed into your Apple Account by tapping "All Watches" at the top left of the Watch app on your paired iPhone, then tapping the info ("i") button next to your Apple Watch. If Find My is not automatically enabled on your Apple Watch, go to Settings on your Watch, tap your name, tap your Watch name, then tap Find My Watch. AppleCare One Plan Costs

For AppleCare One Individual plans, the monthly cost for the plan is \$19.99, which provides coverage for up to 3 devices. The price of the plan includes the cost of insurance provided in the program, which is \$5 per month.^{vi} Additional devices may be added to the plan for \$5.99 per device, per month. The cost to add additional devices does not affect the premium of the insurance provided in the program and does not extend the coverage or claims limits provided by the insurance. If additional devices are added, you will be charged a pro rata rate based on the date the device is added to your AppleCare One plan and the time remaining until your next billing date, with the full monthly rate applying at the next billing date for your plan.

For AppleCare One Family plans, the monthly cost for the plan is \$49.99. The price of the plan includes the cost of insurance provided in the program, which is \$10 per month.^{vii}

AppleCare One plans are for a recurring one-month term. Your benefits and coverage begin on the plan purchase date or when a device is added to the plan and continue month-to-month, unless cancelled or terminated.

You are not required to enroll in AppleCare One to purchase or finance your new device. You may cancel your AppleCare One plan or coverage for devices that were added to your plan at any time and receive an applicable refund, if any, as described in your AppleCare One terms and conditions and state-specific insurance documents.

Only the plan subscriber may cancel an AppleCare One Family plan, but Apple Family Sharing group members may remove their devices from the plan at any time. We will not cancel coverage for non-payment of premium without providing you with the opportunity to pay within the applicable notice period.

Purchasing an AppleCare One Family plan may cancel other active AppleCare plans owned by the plan subscriber and any member of the Apple Family Sharing group.^{viii}
